

**A METHOD OF, AND SYSTEM FOR, PROVIDING AN AUTOMATED
INFORMATION SERVICE FROM AN APPLICATION PROGRAMMING
INTERFACE API APPLICATION TO A MOBILE USER TERMINAL**

Abstract of the Disclosure:

- 5 A method is provided of providing an automated information service from an Application Programming Interface API application to a mobile user terminal away from its home network roaming into another network in a system for mobile telecommunications. The method includes an automated information service providing-means in the network into which the mobile user terminal has roamed acting as a proxy for an automated information service providing-means in the home network.
